

What Makes Flo The choice Ev Charger of retail stores?

Drive traffic...

By choosing FLO, you become part of **Canada's largest EV charging network**, with thousands of charging stations operating throughout the country.

Your stations will be seen on our interactive map and mobile app by over **80% of Canadian EV drivers**—who will choose their shopping and dining destinations based on charging station availability.

...and drive business

Data shows that **92% of EV drivers spend money** at their destination while they charge. The typical EV driver is educated, owns a house and earns an above-average salary—a sought-after clientele.

Not only will charging stations have a positive impact on your business—they can even help you **generate additional revenue**. Simply set the pricing and billing method for your charging stations, and earn money every time customers stop by to charge their vehicle.
